

# Trouble

Ark Patrol

I've got a trouble  
A problem that lasts  
And it's the kind of thing you bury far in the past

Hey little lady  
How do you do?  
Did you expect me to come over to talk to you?

Heart in the water, got your speaking all manner  
Of gibberish under the tree  
Start as a keyboard if you never know nothing  
You're better off following me, oh oh oh

You  
Hit like a comet  
Oh, oh, oh, you  
Sting like a bee  
Oh, oh, oh, you  
Shine like a diamond  
Oh, oh, oh, you  
Are more than I see

Isn't it lonely  
Back at your place?  
Wouldn't you like some company in a better space?  
I know you're worried  
Right from the start  
But maybe you're not the only one hiding a broken heart

Heart in the water, got your speaking all manner  
Of gibberish under the tree  
Start as a keyboard if you never know nothing  
You're better off following me, oh oh oh

You  
Hit like a comet  
Oh, oh, oh, you  
Sting like a bee  
Oh, oh, oh, you  
Shine like a diamond  
Oh, oh, oh, you  
Are more than I see
