

You Know

Ark Patrol

Trying your best now
Still feel like a let down
Was it enough, what it was?
Who's to judge?

Maybe you wanted
Something and you got it
Is it enough, what it is?
Do you wish

It was easy
Easy as calling out 1 2 3
Knowing what's gonna make you happy
What's gonna make you whole?

But it's okay
Okay things get in the way
You don't have to be sure always
You don't

When you put it together
You're feeling light as a feather
And life is better than ever
And in your head
You know, you know, you know

Then you're stuck at a red light
And it's that same feeling you can't find
If there's one thing in this life
It's when you think
You know, you know, you know

You don't
You don't

Nothing is certain
What wasn't working
Isn't the end of the world
No

You try to keep up with
What you ran out of love with
But don't waste your time
Take it slow

It's not easy
Easy as calling out 1 2 3
Knowing what's gonna make you happy
What's gonna make you whole

But it's okay
Okay things get in the way
You don't have to be sure always
You don't

When you put it together
You're feeling light as a feather

And life is better than ever
And in your head
You know, you know, you know

Then you're stuck at a red light
And it's that same feeling you can't find
If there's one thing in this life
It's when you think
You know, you know, you know

You don't
You don't
You don't
It's when you think
It's when you think

You don't
It's when you think
You know, you know, you know
You d-
