

Quitting You

Arkells

I think about you all the time
I can't get you off my mind
If they only knew
Who I've been talking to
You got a place off the park
I'll come on by after dark
Was nervous then
When you let me in

We were hangin at cross town parties (Oh-oh)
Just killing time until the main event

And it hurts, all throughout my insides
I couldn't stop if I tried loving you
I'll never learn, so I'll call ya when I'm outside
You said, "The key's behind the porch light for Unit 2"
I thought of maybe quitting
There's no quitting you

You said that the fridge is dry
But you got some red, you got some white
The drunks outside
Singing lullabies
Slow dance swayin' back and forth
Whispering, "What's mine is yours"
When you say my name
Hits in a different way

You call me out when I'm talking nonsense (Oh-oh)
I'll kiss you when I got nothing more to say

And it hurts, all throughout my insides
I couldn't stop if I tried loving you
I'll never learn, so I'll call ya when I'm outside
You said, "The key's behind the porch light for Unit 2"
I thought of maybe quitting
There's no quitting you

My whole life I'm scanning for the exits (Oh-oh)
Lying next to you I don't wanna leave

And it hurts, all throughout my insides
I couldn't stop if I tried loving you
I'll never learn, so I'll call ya when I'm outside
You said, "The key's behind the porch light for Unit 2"
I thought of maybe quitting
There's no quitting you
