

She puts her ice trays full of water
In the fridge to cool them down
Before the freezer
No matter how hard you might try
Don't cash your chips, you work for her
You'll never please her
She'll melt your eyelids in her mouth
She'll thaw your heart to bleed you out
You'll like the water
She'll suffocate you, wave your flag
Between her legs, she'll cut your hair
You've lost your power

Homebound, it's a comedown
Skip town, you need to settle down
And no matter what they say to you
Pulling tricks the way you do
Oh, oh
Am I under control? No
Do I wanna be? I wouldn't know, I fell in a hole
Open into your world

She puts her ice trays full of water
In the fridge to cool them down
Before the freezer
No matter how hard you might try
Don't cash your chips, you work for her
You'll never please her
She'll melt your eyelids in her mouth
She'll thaw your heart to bleed you out
You'll like the water
She'll suffocate you, wave your flag
Between her legs, she'll cut your hair
You've lost your power

Homebound, it's a comedown
Skip town, you need to settle down
And no matter what they say to you
Pulling tricks the way you do
Oh, oh
Am I under control? No
Do I wanna be? I wouldn't know, I fell in a hole
Open into your world

She'll bring you down in the best way
She'll wear you out, but you'd best stay
