

left behind

Arlie

Back in 2018
We marked today's date
On our calendars
Did you forget?
We'd be in California
After all our
Big dreams had come true
Mine haven't yet

You found salvation
In South Asia
You found your reason
You found your tribe
You found the real thing
You found your teacher
You found a best friend
But you were mine
And I got left behind
I got left behind

Aw, you're so much like Jesus
Guess that's why you had to leave us
And now I'm
Looking for a sign
Cause I got left behind
I got left behind, yeah

You quit the hard drugs
And then the soft ones
You raised an eyebrow
At the grind
And without the parties
Without a lover
You were starving
To know the mind

I still got ambition
I'm still dreaming
I got focused now
I got drive
But I'd give it all up
Just to be around you
If I could be around you
All the time
But I got left behind
I got left behind

Aw, you're so much like Jesus
Guess that's why you had to leave us
So now I'm
Looking for a sign
Cause I got left behind
I got left behind, yeah
I got left behind
(I got left behind, oh yeah)
(Yeah, I got left behind)
