

something about her

Arlie

I'm ready to fall in
She's always calling
But just never at the right time

I'm three years older
She's always sober
But she's never in her right mind

While she's taking my heart out
She says sorry
That you're having such a hard time

While she's running the company
She goes out on leave
She can't even do part-time

But there's something about her
When she's around
I could never doubt her
There's something about her

No matter how bad she hurts, I'll never
Be convinced that she's the bad guy

No matter how dark it gets
Trying to see her in the half-light

The summer went by in the blink of an eye
Like remembering a past life

I live in a blur
But the memory of her
Is still burning like a gaslight

But there's something about her
When she's around
I could never doubt her
There's something about her...

There's something about her
When she's around
I could never doubt her
There's something about her...
