

# Don't Mind

Arlington

On the corner of sidewalks, I was sleeping  
Well I've been trying to get some rest  
But she don't love all the time spent  
I was drinking  
But I've been telling you everybody does

On her lover's phone, I don't like it  
Is my statement on? Let him lead you  
How the story goes, and I want him gone  
Or I'll arrest myself

So why have we been so far away?  
Cause I don't mind what you said  
And when did this get complicated?  
You won't find anything  
But wants a cold gun?  
I wouldn't let you feel so alone

Gotta see how she crowds my head  
With thinking  
She don't know me by my first name  
And if competence is a crime  
He's not worth keeping  
She won't criticize anybody else

On her lover's phone, I don't like it  
Is my statement on? Let him lead you  
How the story goes, and I want him gone  
Or I'll arrest myself

So why have we been so far away?  
Cause I don't mind what you said  
And when did this get complicated?  
You won't find anything  
But wants a cold gun?  
I wouldn't let you feel so alone

Trust my brother  
He don't share my devotion  
And cop my lover  
It just leads to demise  
Of course, but I am  
Not devoid of emotions  
I'm already down  
Ain't no need to remind

So why have we been so far away?  
Cause I don't mind what you said  
And when did this get complicated?  
You won't find anything  
But wants a cold gun?  
I wouldn't let you feel so alone
