

## Motion

Arlington

I said, "Here's to hoping I'll never fall in love  
And here's to hoping you never change."  
Cause you got me thinking we took this far enough  
But you told me, "Here's to hoping we survive."  
But that's not how you do it  
You got me thinking on it  
I'm crossed and that's a shame

So give me some motion and I'm satisfied  
Cause I wanna hold you every day you're away  
And now that you see that I won't change my mind  
Or leave your side  
I'm old enough. Would you come back to me?

Now you're the reason I got you feeling so bad  
And I think you're the reason that this doesn't come to me  
Cause you called me some bad names  
And you showed me, you showed me what it means to die  
And that's not how you do it  
You took the fruit from my hands  
It's gone but that's ok

So give me some motion and I'm satisfied  
Cause I wanna hold you every day you're away  
And now that you see that I won't change my mind  
Or leave your side  
I'm old enough. Would you come back to me?

So give me some motion and I'm satisfied  
Cause I wanna hold you every day you're away  
And now that you see that I won't change my mind  
Or leave your side  
I'm old enough. Would you come back to me?  
I'm old enough. Would you come back to me?
