

Candy Cane

Arlissa

Feels like summer hasn't changed for a while
Damn I hate it when it rains
Even moved out to LA for a while
But my heart still feels the same

Usually I'm more touch and go
Usually I'm more fast than slow
Pack my bags and I fix my credit
If I want it then I go get it
And I'm free
I feel liberated
Look at me

Girl you did that
You can have your cake and eat it too
You can do anything you wanna do
Girl you did that
You can have your cake and eat it too
Don't it taste like candy cane

Don't it taste like juice
Gimme some of that forbidden fruit
I don't care what other people say
I love I love I love the taste
Look at you shine
Look like what money can't buy
Look how far you've come
Girl you the one

Usually I'm more touch and go
Usually I'm more fast than slow
Pack my bags and I fix my credit
If I want it then I go get it
And I'm free
I feel liberated
Look at me

Girl you did that
You can have your cake and eat it too
You can do anything you wanna do
Girl you did that
You can have your cake and eat it too
Don't it taste like candy cane

Girl you did that
You can have your cake and eat it too
You can do anything you wanna do
Girl you did that
You can have your cake and eat it too
Don't it taste like candy cane
Don't it taste like candy cane
