

## Games

Arlissa

It's all fun and games  
Till one of us goes insane  
We're dominos out of place  
But tell me now, who's to blame  
I wanna know, I wanna know, I wanna know why you came  
If it's all fun and games, is it all fun and games?

We play with fire  
The trouble is, it hurts me so good  
You get me higher  
And hold me down  
When I know I should  
See the signs  
Looking in your eyes  
It's all fun and games  
Till one of us goes insane

I should have known by now  
And I should have walked away  
All I really wanted  
Yeah, all I really wanted was a good time baby  
A good time baby

It's all fun and games  
Till one of us goes insane  
We're dominos out of place  
But tell me now, who's to blame  
I wanna know, I wanna know, I wanna know why you came  
If it's all fun and games, is it all fun and games?

We dance on glass  
Any moment we could fall through  
Keep coming back  
Even though I know the truth  
In the lies  
Looking in your eyes  
It's all fun and games  
Till one of us starts to break

I should have known by now  
And I should have walked away  
All I really wanted  
Yeah, all I really wanted was a good time baby  
A good time baby

It's all fun and games  
Till one of us goes insane  
We're dominos out of place  
But tell me now, who's to blame  
I wanna know, I wanna know, I wanna know why you came  
If it's all fun and games, is it all fun and games?

It's all fun and games  
Games  
Tell me now, who's to blame  
Games  
I wanna know, I wanna know, I wanna know why you came

If it's all fun and games, is it all fun and games?
