

Getting Older

Arlissa

Tell me did my whole life
Flash in front of my own eyes
There's so much that I didn't try
And next year I'll be 25
Don't know how to be alone
I'm too busy on my phone
There's so much that I don't know
Didn't learn the piano

And don't you think it's crazy, time we're wasting, don't remember it
And I don't wanna spend my life the way my father did
He said one day you'll blink and it'll all be over with
I'm missing every moment but all I really know is

These days I'm moving way too fast
Don't tell me I'm getting older
Don't tell me I'm getting older
Time fades the memories I have
Don't tell me I'm getting older
Don't tell me I'm getting older

Missed your birthday last weekend
Cos I couldn't get time off
And you know how much work costs
And now all of the times lost
She said I'm such a bad friend
I guess that's what I deserve
Cos I always put me first
Is it too late to reverse

And don't you think it's crazy, time we're wasting, don't remember it
And I don't wanna spend my life the way my father did
He said one day you'll blink and it'll all be over with
I'm missing every moment but all I really know is

These days I'm moving way too fast
Don't tell me I'm getting older
Don't tell me I'm getting older
Time fades the memories I have
Don't tell me I'm getting older
Don't tell me I'm getting older

These days I'm moving way too fast
Don't tell me I'm getting older
Don't tell me I'm getting older
