

# Melody

Arlissa

I wanna go  
I wanna follow you like no place is too far  
I wanna swim the deepest ocean  
And just dive into  
All the light of you  
Til I know  
I know

Got to be love  
Got to be love  
Taking me over  
Got to be you  
Got to be you  
Pulling me closer  
Stuck in my head  
Stuck in my head  
Just like a melody  
Just like a melody  
And it goes like

Dum dum dada  
Dum dum dada da da  
Dum dum dada  
Dum dum dada da dada  
Dum dum dada  
Dum dum  
Just like a melody  
Just like a melody  
And it goes like

Dum dum dada  
Dum dum dada da da  
Dum dum dada  
Dum dum dada da dada  
Dum dum dada  
Dum dum  
Just like a melody  
Just like a melody  
And it goes like

I wanna know  
If you can hold the different pieces of my heart  
If you can save me from the deep end  
When I fall into all the darker shades of you, of you

So far away  
But I can feel you running circles in my brain  
It's getting louder and I wonder  
If you feel the same  
Is it driving you insane, insane

Got to be love  
Got to be love  
Taking me over  
Got to be you  
Got to be you  
Pulling me closer

Stuck in my head  
Stuck in my head  
Just like a melody  
Just like a melody  
And it goes like

Dum dum dada  
Dum dum dada da da  
Dum dum dada  
Dum dum dada da dada  
Dum dum dada  
Dum dum  
Just like a melody  
Just like a melody  
And it goes like

Dum dum dada  
Dum dum dada da da  
Dum dum dada  
Dum dum dada da dada  
Dum dum dada  
Dum dum  
Just like a melody  
Just like a melody  
And it goes like

Just like a melody  
Just like a melody  
And it goes like
