

## Multiply

Arlissa

I don't wanna to talk about it  
Just give me some time  
And I will be a better man

Maybe you can understand

Don't wanna to hear about it  
You don't make me smile  
The way you did when we were young  
So why we holding on

If this ain't love  
Then I won't let you in  
Cause we're going around in circles  
And I won't be back again

This ain't us  
Tell me why I play the game  
To win or lose the same

Oh why'd I try to fight  
When you just multiply  
I'm running out of lives  
There you go messing me around again  
You've taken something that's not given  
Not your turn to restart it again  
You multiply

Think I might break away  
Before I feel the pain  
Take it day by day  
But better off this way  
Think I might break away  
Before I lose it all  
You know what they say  
Love's a losing game

So why'd I try to fight  
When you just multiply  
I'm running out of lives  
There you go messing me around again  
You've taken something that's not given  
Not your turn to restart it again  
You multiply
