

# If You Would Just Drop By

Arlo Guthrie

Friends I used to know are coming by  
To ask me if my situation's high  
'Cause sometimes I just stare at the sky  
Up is down before Her crown I cry

If you would just drop by sometime  
If you would just drop by  
If you can possible make it up sometime  
I can be there if I try

The world world keeps spinnin' me 'round  
Bringing me up and bringing me down  
But I can't get there with my feet on the ground  
Maybe I oughta start digging a hole around my feet on the ground

You know once in while as I sit and stare  
I get the feeling that there's no one there  
Look at me now as I roll off my chair  
How did I know that a chair could be out where I stare?

[CHORUS]
