

# She's Always Around

Arlo McKinley

I can see she's got a hold of me  
With no plans to put me down  
I've been awake for 5 days straight  
Drove through 6 damn different towns  
I wish I had you to come home to  
I could lay my troubles down  
But she never believed that you really loved me  
And she patiently waited around

She's always around  
Hanging out in those dark corners  
'Cause she knows the one I love won't let me hold her  
She's always around  
Hanging out in the same places  
'Cause she knows that I'll come crawling  
Every time I'm breaking down

This will surely be the death of me  
I've accepted that as truth  
But the death she brings holds more honesty  
Than the love that I got from you  
It's not the kind of love I need  
But I can't walk away, I've tried  
So I'll take this love till I take too much  
And the life has left my eyes

She's always around  
Hanging out in those dark corners  
'Cause she knows the one I love won't let me hold her  
She's always around  
Hanging out in the same places  
'Cause she knows that I'll come crawling  
Every time I'm breaking down  
'Cause she knows that I'll come crawling  
Every time I'm breaking down
