

2SIDED

Arlo Parks

I've been waiting for this moment all night
Yeah, I only made it out for you
Joey's sipping beer and guarding his daze
There's a butterfly effect, 'cause

I, I feel my heartbeat climb
The moonlight cuts through, white
My friends are all inside

The heat and the dark
My head is so cloudy (My head is so cloudy)
You know how I feel
Tell me it's two-sided (T-tell me it's two-sided)
The heat and the dark
My head is so cloudy (My head is so cloudy)
You know how I feel
Tell me it's two-sided (T-tell me it's two-sided)

There's a sadness that I really can't shake
But my vision's got a few stripes
I never really feel at home anywhere
It's the right place at the wrong time

I, I feel my heartbeat climb
The moonlight cuts through, white
My friends are all inside

The heat and the dark
My head is so cloudy (My head is so cloudy)
You know how I feel
Tell me it's two-sided (T-tell me it's two-sided)
The heat and the dark
My head is so cloudy (My head is so cloudy)
You know how I feel
Tell me it's two-sided (T-tell me it's two-sided)
The heat and the dark
My head is so cloudy (My head is so cloudy)
You know how I feel
Tell me it's two-sided (T-tell me it's two-sided)

My head is so cloudy
T-tell me it's two-sided
