

# Softly

Arlo Parks

I'm dazzled hard, we're in Berlin  
And when you leave, just break it down to me softly  
Well there's a frame, I'm shattering  
I dip into the love we had with ease  
Lemon and ginger beer, soap suds on navels  
If I've upset you, could you maybe say so?  
Has something changed, have I just missed the memo?  
Tell me what I don't know  
Oh won't you...

Break it to me, break it to me, break it to me  
Break it to me softly, I don't want no one else  
Break it to me, break it to me, break it to me  
Break it to me softly, I don't want no one else  
Break it to me, break it to me, break it to me  
Break it to me softly, I don't want no one else  
Break it to me, break it to me, break it to me  
Oh, I forget myself, I don't want no one else

The pressure thuds behind my eyes  
You look at me as if it's my fault that we're stood here  
The cobalt of your scarf has pulled clear  
Stealing me traffic cones, smiling at babies  
I must admit I wanted you to save me  
Now I'm sat on the ground, feeling half crazy  
I don't want you to go  
Oh won't you...

Break it to me, break it to me, break it to me  
Break it to me softly, I don't want no one else  
Break it to me, break it to me, break it to me  
Break it to me softly, I don't want no one else  
Break it to me, break it to me, break it to me  
Break it to me softly, I don't want no one else  
Break it to me, break it to me, break it to me  
Oh, I forget myself, I don't want no one else

Oh, I forget myself, I don't want no one else  
Oh, I forget myself, I don't want no one else  
Oh, I forget myself, I don't want no one else  
Oh won't you...

Break it to me, break it to me, break it to me  
Break it to me softly, I don't want no one else  
Break it to me, break it to me, break it to me  
Break it to me softly, I don't want no one else  
Break it to me, break it to me, break it to me  
Break it to me softly, I don't want no one else  
Break it to me, break it to me, break it to me  
Oh, I forget myself, I don't want no one else
