

Miles Away

Armin van Buuren

I remember when you couldn't help but pull me close
We were always high and never low

Days we wished we'd saved
Days I can't replace

Yeah I should've noticed when you wiped your eyes
Didn't see you heart drifting off from mine

Your close but far away
You're here but not with me

I feel like I'm miles miles miles away
I feel I'm miles
But I'm coming back to get you babe

I feel like I'm miles miles miles away
I feel I'm miles
But I'm coming back to get you babe

Like trying to feel the heat from the moons light
Been trying to blame you but the fault is all mine

The mask is coming off
I'll pick up what I dropped

I see a spark I know we're not forever lost
What do you I have to do I don't care what it costs

Your close but far away
You're here but not with me

What stopped I'll start again
Yeah I'll be there you tell me when
You won't be mad
Cause I won't lose you again

We'll start where we left off
We'll move it on like we forgot
You won't be mad
Cause I won't lose you again
