

Sleepless Nights

Armin van Buuren

Whispers running around my mind
The walls are closing, I'm trapped inside
The ground keeps shaking
Feels like there's no escaping

I tried to call you, I can't get through
But in the crowd I still look for you
Where are you hiding?
For you I'll keep on fighting

So tell me if there's a way that you can save me
Right now I need you to be by my side
'Cause I can't take another sleepless night, sleepless night

Without you, without you, without you, without you
Without you, without you, without you
'Cause I can't take another sleepless night, sleepless night
Without you

'Cause I can't take another sleepless night, sleepless night

Without you, without you, without you, without you
Without you, without you, without you
'Cause I can't take another sleepless night

Shadows wander beneath my skin
I hear your voice, but it's wearing thin
The air is heavy
I feel so unsteady

So tell me if there's a way that you can save me
Right now I need you to be by my side
'Cause I can't take another sleepless night, sleepless night
Without you

'Cause I can't take another sleepless night

I can't take another sleepless, sleepless night
I've been dreaming of your body next to mine
Oh, if only there's a way for me to find
An end to my sleepless nights
