

# Breakdown

Ar'mon & Trey

(I said break, breakdown  
Stay breaking me all down  
Break, breakdown)

Okay, okay I put my pride down (down)  
Put down your attitude ('tude)  
You stop yelling at me (me), I stop yelling at you (you)  
We both said some things, most of it ain't even true (true)  
We talk crazy when we mad, you know how we do  
I need a minute, can you give me one  
Let me get my mind right, room, can you give me some  
I only do this with you, don't argue with just anyone  
We do this all the time, this time feels like we really done

And imma breakdown  
'Cause even though I'm kinda heated right now  
I don't like it when you're not around  
So I think we need to figure this out, right now

Tell me if you, love me, why you leaving?  
Thought we were together for a reason  
If you really love me, why you leaving?  
Tell me if you, love me, why you leaving?  
Thought we were together for a reason  
If you really love me, why you leaving?

(Ohh why, ohh why do you)  
(I say break, breakdown)  
(Why oh why, why you)  
(Stay breaking me all down)  
(Why oh why you)  
(Break, breakdown)  
(Stay breaking me all down)

Yeah, you better stop it right there  
You 'bouta say some things I ain't tryna hear  
Cause I see it now, I can hear it loud and clear  
Baby all I know is, I don't wanna see  
The part of you that makes me wanna leave  
The part of you that makes me wanna cheat  
Girl you really tryna make me see the signs  
This time feels like we're really done

And imma breakdown  
'Cause even though I'm kinda heated right now  
I don't like it when you're not around  
So I think we need to figure this out, right now

Tell me if you, love me, why you leaving?  
Thought we were together for a reason  
If you really love me, why you leaving?  
Tell me if you, love me, why you leaving?  
Thought we were together for a reason  
If you really love me, why you leaving?

(Ohh why, ohh why do you)  
(I said break, breakdown)

(Why oh why, why you)  
(Stay breaking me all down)  
(Why oh why)  
(Break, breakdown)
