Know What You Have

Armor for Sleep

You know,
I'll always come back.
An army of them,
Can't stop what we have.
Their footsteps move,
are creeping up so fast.

Let's sneak out the back door,
and ditch them finally.
Let's sneak out the back door,
and ditch them finally.

I love the sound,
when no ones around.
And I can hang out with you.
I'll let them all,
see what they want.
But no one can take me away from you.

Go where there arms cant reach for this.
I'll take you along,
we can be alone at last.

Let's sneak out the back door,
and ditch them finally.

I love the sound, (2x)
when no ones around.
And I can hang out with you.
I'll let them all,
see what they want.
But no one can take me away from you.

Won't let them wage war (2x)
Won't let them wage war on what we found. (4x)

I love the sound,
when no ones around.
And I can hang out with you.
I'll let them all,
see what they want.
But no one can take me away from you.
