

## Raindrops

### Armor for Sleep

You appear like raindrops  
And leave like you sink through  
The streets that you fall on  
The cars that slip on you  
All of this for just one night

Suffocate me, all you need,  
I won't breathe but it's okay  
You'll be somewhere around me  
And I won't need air

The clouds will break my house  
And throw me from my room  
I'll drown in the rainfall  
And float till I find you

You appear like raindrops  
And leave like you sink through  
The streets that you fall on  
The cars that slip on you  
All of this for just one night

Suffocate me, all you need,  
I won't breathe but it's okay  
You'll be somewhere around me  
And I won't need air

And I won't need air  
And I won't need air  
And I won't need air  
And I won't need air

Suffocate me, all you need,  
I won't breathe but its okay  
You'll be somewhere around me  
And I won't need air

Suffocate me, all you need,  
I won't breathe but its okay  
You'll be somewhere around me  
And I won't need air
