

Bubble

Armored Saint

Enclosed their shortcomings
Never get 'em exposed
The usual margin of victory
Is a stone's throw
Talking to ya
With language bellicose

But if I fail to get in
You know that I'll fail fighting
Door's closed but someone's home
Just keep trying

I hover around outside the bubble
One day I'll peer inside the bubble
Could be trouble
And that layer ain't that thick
Let it rip

Now that I've broken the seal
To this private club
I can see the face
Of Beelzebub
Clear as ever
But if

But if I fail to get out
You know that I'll fail fighting
Door's closed, can't escape
Just keep trying

I hover around inside the bubble
If I get a chance I'll pop the bubble
I'm in trouble
This layer ain't that thick
Let it rip

Could be trouble
I hover around inside the bubble
I'm in trouble
One day I'll slip outside the bubble
I'm in trouble
I hover around inside the bubble
One day I'll live outside the bubble
I'm in trouble
I hover around inside the bubble
And this layer ain't that thick
Ain't that thick
Ain't that thick
Ain't that thick
