

Can U Deliver

Armored Saint

(John Bush/Dave Prichard/Phil E. Sandoval/Joey Vera/Gonzo)

Alright

Can U Deliver

I'm overlooking you

Laying out the question

Think that you'll pull through

Do you know what love means

A push and then a shove

Don't put the thought around me

I'm comin' from above yea

Me I'm just a young soul lookin'

For a good time tonight

You want it to last forever

I don't have that in sight no

Seems to be the same old stroy

Yo get 'em once and the fall at your knees

I wish that I would've known better

Before I played the dirty deed

Not romance to me

It's just the fever

Here's your chance to please

Can u deliver

Can u deliver, can u deliver, can u deliver

It's a shame to take your dreams

And chain them to reality

I don't listen anymore

Action is what I need

Not romance to me

It's just the fever

Here's your chance to please

Can u deliver

Can u deliver, can u deliver, can u deliver

Can u deliver, can u deliver, can u deliver

Can u deliver

Deliver to me
