

Lone Wolf

Armored Saint

Should we slow dance
Tango or hustle
Maybe I'll just choose to sit this one out
I've been a wallflower most every evening
Instead of cutting a rug I just pout

Whether I lead or come in dead last
All the effort that I gave got me gassed
Taking too much or taking close to none
I don't seek redemption

Yeah
Lone wolf, lone wolf
Peppered by debris
Yeah
Lone wolf, lone wolf
Choosing to retreat yeah

Navigate through these treacherous waters
I need to upgrade to a battleship
So when it comes to split decisions
My turret always shoots from the hip

Whether I lead or finish dead last
Playing the waiting game ain't a free pass
Taking too much or taking zero to none
I can't take rejection

Yeah
Lone wolf, lone wolf
Showered by debris
Yeah
Lone wolf, lone wolf
Put your shoulder to the wheel yeah

Get on up dust it off
What it was an afterthought
This behemoth task is ahead
Get on up dust it off
What it is all for naught
Peace with inclusion ain't looking to spread
Withdrawing instead

Yeah
Lone wolf, lone wolf
Oh showered by debris
Yeah
Lone wolf, lone wolf
Yeah choosing to retreat
Yeah
Lone wolf
Put your, put your shoulder to the wheel
Yeah
Lone wolf, lone wolf
And don't ever kneel
Don't ever kneel
