

Never Satisfied

Armored Saint

Where do we go from here
There must be something me near
Changing you, changing me forever
Places change, faces change
Life is so very strange
Changing time, changing lies together

There's nowhere else to go
This could be or last show
Changing dreams, changing schemes - never
We are never satisfied

Live is gone along with fun
Now we're reaching for the gun
Changing cash, changing fast - no more tether

We are never satisfied
