

C'est Demon

Army of Lovers

C'est d}mon every day away from you
C'est d}mon every night i'm going through
Every trick i have tried
To get by while you are gone
How can i get along
C'est d}mon

C'est d}mon hear you whisper on the phone
C'est d}mon when you say how much you long
For my body to stay
Next to you where i belong
Every long distance call
C'est d}mon

Any drink that i drink
Any lover i see
Without you what's the point being free
Where's the world going to
When i'm still missing you
All i ask you return loving me

C'est d}mon every day away from you
C'est d}mon every night i'm going through
Every trick i have tried
To get by while you are gone
How can i get along
C'est d}mon

C'est d}mon hear you whisper on the phone
C'est d}mon when you say how much you long
For my body to stay
Next to you where i belong
Every long distance call
C'est demon

All the diamonds i wear
All the money i make
Without you by my side i'm a fake
Where's the world going to
When i'm still missing you
All i ask you return for my sake

C'est d}mon every day away from you
C'est demon every night i'm going through
Every trick i have tried
To get by while you are gone
How can i get along
C'est d}mon

C'est d}mon hear you whisper on the phone
C'est d}mon when you say how much you long
For my body to stay
Next to you where i belong
Every long distance call
C'est d}mon
C'est d}mon
C'est d}mon
C'est d}mon
