Supernatural

Army of Lovers

Light in the tunnel I find my way home Spirits have flown Waving goodbye to material things From angel wings

Back to nature my return Change of heart the skin is burned Found a cure I'm all hooked up Meditate on a mountain top

Born again to contemplate Power field I can create Flying high on a wave of love Supernatural

What can I say what could I do I'm still with you, supernatural Tell me you see, tell when you dare Go everywhere, supernatural

Deep in the forest I fight to protect Nature's respect Over the ocean and under the sky Learning to fly

Secrets hidden pollute your mind Open spaces are there to find Voices tell I stood the test Walk transparent I'm obsessed

Make a move let your mind feel free Stepping outside reality Flying high on a wave of love Supernatural

What can I say what could I do I'm still with you, supernatural Tell me you see, tell when you dare Go everywhere, supernatural

What can I say what could I do I'm still with you, supernatural Tell me you see, tell when you dare Go everywhere, supernatural

What can I say what could I do I'm still with you, supernatural Tell me you see, tell when you dare Go everywhere, supernatural

What can I say what could I do I'm still with you, supernatural Tell me you see, tell when you dare Go everywhere, supernatural
