

# Venus and Mars

Army of Lovers

I saw a star  
Venus and mars  
The sky  
Across the rainbow  
I find my halo  
Venus and mars

I saw a star  
Venus and mars  
The sky  
Across the rainbow  
I find my halo  
Venus and mars

The clock of time the night of doom  
An angel passing through my room  
Dark shadows fade the lights away  
Like birds of prey

I saw a star  
Venus and mars  
The sky  
Across the rainbow  
I find my halo  
Venus and mars

I saw a star  
Venus and mars  
The sky  
Across the rainbow  
I find my halo  
Venus and mars

The sun the moon the flaming sky  
A wandering star in heavens high  
Tonight we dream on broken glass  
Oh razzmatazz

I saw a star  
Venus and mars  
The sky  
Across the rainbow  
I find my halo  
Venus and mars

I saw a star  
Venus and mars  
The sky  
Across the rainbow  
I find my halo  
Venus and mars
