

# When The Night Is Cold

Army of Lovers

I want to break out  
I want to break out  
From this trap I'm in  
I want to shake out  
I want to shake out  
All this talk of sin

But when the night is cold  
Protect my heart and soul  
Keeping our mystery alive

I never thought they could be serious  
With all this talk about a threat to us  
Staying alive  
Staying alive  
When the night is cold  
But then a friend of mine was gone one day  
I knew there couldn't be another way  
I hold you tight  
I hold you tight  
When the night is cold

Love and devotion  
Love and devotion  
May be news to you  
Sincere emotion  
Sincere emotion  
Has to last all through

But when the night is cold  
Protect my heart and soul  
Keeping our mystery alive

I never thought they could be serious  
With all this talk about a threat to us  
Staying alive  
Staying alive  
When the night is cold  
But then a friend of mine was gone one day  
I knew there couldn't be another way  
I hold you tight  
I hold you tight  
When the night is cold

I never thought they could be serious  
With all this talk about a threat to us  
Staying alive  
Staying alive  
When the night is cold  
But then a friend of mine was gone one day  
I knew there couldn't be another way  
I hold you tight  
I hold you tight  
When the night is cold

I never thought they could be serious  
With all this talk about a threat to us

Staying alive  
Staying alive  
When the night is cold  
But then a friend of mine was gone one day  
I knew there couldn't be another way  
I hold you tight  
I hold you tight  
When the night is cold
