Always, when you're dying in your Hell Remember well, Remember well Always, that you brought this on yourself To die in Hell, within my Hell

A fear inside

Always, when you're melting in your lust Just remember the sins of your past Cause I, I have coem here to collect And you God is not around

Lately, He's never around

Dies Irae
I sometimes hear Her
Oh how they fear Her
Silence is forever
Pain is when She's nearer
Pay the price
On Dies Irae

Souls all across the universe
Men who failed, who have loved and lost
What they didn't understand
There's no such thing as a second chance

God sends you war So that you can cherish peace The Devil sends Her To make sure you never find it
