

Virus

Arrayan Path

It started slowly
Infectious virus
Unleashed unto the world
Like wildfire
Another lockdown
Another crackdown
Another broken life
Disaster

Our friends and family we fear (mad!)
There is no end to fear
Our sickness feeds the fear, it's a disease

Violent the Virus

And then the crazies
They yell conspiracy
Can't stand it anymore, naivety
A world of carriers, restrictions, barriers
Embrace stupidity

Our way of life has been deformed (plague!)
We are no longer sociable
We are our own disease of sterile reality

Violent the Virus
Silence is never-ending
Violent the Virus
Violent!

Violent the Virus
Silence is never-ending
Violent the Virus
Violence (is never-ending)
