

## Cheeky Bars (Pt 2)

ArrDee

KPB

It's a real spill  
ArrDee, you already know the deal, hey  
Look, uh

You see me smiling 'cause I'm cheeky  
But I'm smiling through the pain  
I can speak on it for days  
Was on my knees up in the rain  
Not a penny to my name  
Darlin', shit, ain't always lit  
And I weren't always legit, ah  
From kid, I have been a little shit

The picture wasn't perfect, it was worth it though  
It made me who I am, so if I win, then I deserved it  
Mother put the work in, I can see it now I pree it  
It was me, my mum and brother, made it work with what she's earning  
I flipped a bit of weed, couples G's were kitty serving  
When you grow up by the sea, all you see is nitties lurking  
I can tell you bout my teens  
As a kid, I always wanted more  
I just didn't know it at the time  
I used to rob the corner shop for a couple sweets  
Was always playing out, weren't sitting playing PS3  
010 I met my dad  
Always heard that they could see the man in me  
I didn't know the man he was  
The more you grow the more you know I s'pose  
School, I didn't like it, still I got my grades  
I'd smoke a zoot to start the day, the gally knew I'm always blazed  
Had this chick up in math  
She was baffed I passed the test  
You ain't revising  
You're sleeping in the class and writing bars  
I had her smiling  
See I ain't ever tried, I put trust into the timing  
Used to watch my mum grind before I knew about the grinding  
Why I never rest, how I live my life it can get tiring  
I can never slow down tryna secure the bag  
So I put in the graft, I ain't sitting on my ass  
Putting in a shift, make a hits or filling up my glass  
I see the fakeness in their eyes and they ain't gonna last  
She see the greatness in my lines like I just done a halfie  
Naughty ArrDee  
Been an azbo with the lads when he was thirteen  
See I was good at heart, but the cards I'm dealt were dirty  
Trust, mad snakey  
But life ain't fair, it be more about what you make it  
Saw my chance, I had to take it  
My heart, they had to break it  
Countless times they stabbed my back so I can take it  
My ex is mad, the sex is madder, have to face it  
I get it off my dad the way I'm always off my face  
It's bad  
If you seen what I have, you'd do be same  
I never had no plan

Up in my town, we getting waved  
How we getting through the day, I'm a chav, baby cakes  
Used to cool off at the skatepark, but we weren't ever skating  
The way I got from there to here's amazing  
I never had shit and it weren't given, I was taking  
Come from the bottom how I know I gotta win  
This music, it's in my blood  
I got it tatted on my skin

Ha, ArrDee  
ArrDee, ah  
Ha, remember the name  
Comin' for them, you know it  
Yeah, I'm out
