

Early Hours

ArrDee

Early hours of the morning
I can hear the birds chirping
But we ain't stopping 'til we falling, I
Wanted some more and I earned it
Uh, put the work in
She was bad underneath
Looked good on the surface
Uh, perfect
I might show love if you're worth it

But we ain't stopping 'til we falling, I

But be quick 'cause there ain't much time
Just looked at the watch and it's half past 5 in the AM
Plus you know the vibe, I'm just saying
If you want me right now you gotta stop playing
We been partying all night
Just looked at the sky and it's bright and we laying
Just talking about life
Like you been here the whole time and we just met
Talking 'bout the past, you're scarred
And know that it half got you upset
But it might be the drugs or the party, either way I don't feel rough yet
Innocent but she like rough sex
You go first darlin', I'll come next
Champion you to your success, but it's

Half of the mandem have just tapped out
You know can't nobody party like me

Some have tried but it don't end nicely
I don't drink lightly, it might be the pain
Like when I can't feel my face
Cah you can't feel much but the vibes in the place
Sidetrack, the way that you whining your waist
To the slow jam got me feeling some type of way
It might be your lucky night today
Behind and the rest of the world away
They wake up for work and we still awake
We never did learn how to stop the game
I just reminded you of it
I like how you smile when you on it
Them devilish eyes like you want
I'm tired and I promise
