

# Fire In The Booth

ArrDee

Starting deeper for them  
I ain't even going to give this one that whole (Haha Arrdee, Arrdee) intro  
I'm talking to you lot  
So listen (Look)

Know why I never called me a dream chaser  
Cuz calling it a dream will make it seem like it ain't achievable  
But this is what my dreams made of  
This what I wanted as a team  
Before that the studio is where is eat sleep and breathe

I see fake love  
That shit could never get to me  
You better keep that over there  
Don't want to see really-  
I prefer the hate bruv  
Fuel to the fire  
It just feeds me  
My smoke up in my room will stop you breathing

I'm comfy when in danger  
Love it up in anger  
Its the one emotion I can feel the other ones  
It really wired in my brain but  
I'm fucking grateful for the pain  
Cah the rain enrolled all the rubble that I came from and paved the way

I started following the stream  
You know Row Row Your Boat  
I wasn't sailing Merrily  
And still I came up  
I landed where I meant to be  
I'm not a dream chaser  
That ain't the phrase  
But this is what my dreams made of

Mum I know you're listening  
I had to take the time out to talk to you  
Cuz this is all because of you  
All the little things you used to do  
Told me that I could be anything  
I really wanted to

I know most parents do  
But not like you mom, nah  
I proved it to me with your actions  
Monkey see, Monkey do

Watched you work two jobs  
Go back to colly and improve  
Plus the place you came from  
You were meant to lose

It didn't stop you  
I grew up and I watched you  
Handle all the weight upon your shoulders  
There was no one there to spot you

So I thought it was normal the way that I believed in me  
Cah I grew up watching you believe in you

I never called this shit a dream, no  
This was just a mission  
A one way ticket to the life  
That the kid was born to life in  
I knew it since I was like 7  
Born with this shit it was a blessing

I need to talk to my brother  
It's kind of fucked all the lyrics that I wrote  
And all the years I've never spoke about us  
You're the only person on the planet that I trust  
Yah, I trust you more than me you really seen it from the start

Bruv, we come up from sharing the same bath  
Used to bag up in my room an hide my weed up in your garms  
You know I love you bro, I know I never say it much  
You used to tell me patten up, and I would say I got it patterned

The biggest believer in all my rapping  
I was out there 2 a.m. and you was sitting waiting up  
Never told me stop it cuz you knew I wasn't dumb  
And plus I never realy listened cuz I never gave a fuck

You've always had the bigger heart  
And I admire that wish I never see the world dark  
And please don't think I'll ever leave you in the past  
I'm on the move to make it happen as for me, you and (?)

We've always had free rules  
And I won't say them cuz you know what they are  
I'd kill a man who even thought my brother wrong  
Sit there in the courtroom, say guilty and take the charge  
I can't even put it into words how we are  
And if you weren't around I promise you I'd give it all up

Why it's breaking my heart  
Watching you create scars  
That are harder to heal  
The more that you open up  
I feel fucked

Why am I getting up  
When my own fucking blood's bleeding stuck in the mud  
When did we drift apart  
It's like I saw it happening in front of me  
And so the blame for it take off  
It must be hard

Little bro surrounded by the lies  
While you're thight trapped in a world that's so so dark  
And the fights no good  
When it's psychosis  
We can't even talk it out  
Cuz you don't know who you are

I've never felt so powerless  
And I'm proud of this but on my fucking life now I'd give it all up  
If I could get into your head  
Get you of the meds  
I go back to stolen pets and cars

Making money off some drugs  
Does that make no of course not  
It's hypocritical  
But the pain I feel for you is fucking physical  
There's literally not a single thing that I wouldn't do to get to you  
I love you bro  
I'm missing you

All the partying and hustling were fucking up my dreams  
So I had to intervene  
Look up in the mirror  
Another world with me, I'm like 2 different guys  
This some Jekyll and Hyde shit

Me and him ain't lived the same live  
One of them got all the pain  
And the other one doesn't give a shit  
He's the one they see, he's the one who's always lit  
Partying with all the chicks, brings the bottle's and the snif

And the other one he's screaming inside  
But he's muffled by the vibe  
Of this easygoing guy  
That they all want to know  
And now he gets there they all want roll  
And he lets them, but he don't trust the soul

The smiles are we cops  
Seen everything I've seen  
But he acts like he don't  
Feels the room of empty [?]  
Can't keep the other low  
He's getting louder  
That's the same reason  
He's trying to cut out all the blow

Could of, had a margin  
He was getting high and wasn't feeling like a person  
And he's me  
The both of us are riding on the beat  
It's hard to grasp it  
But once you have it's easier to see

The one thing we do have in common is the dream  
One manifested, the other one he ain't believe  
But I was born to succeed  
So please don't call me a dream chaser  
Because I'm living out my dreams
