

# Late Night Driving

ArrDee

(HARGO production)

Ayy, uh, look

Late night driving, it's 5AM on the M-way  
I been in the booth all night, giving my all  
Just so they can press play  
Ain't seen mum in month and I miss her  
But I'm grafting in the best way  
When you been on your arse so long  
This shit hit different, do you comprende?

I might take a flight at the end of the year for the work I put in  
Turn off my phone off the week, no socials  
See how the other side living  
I couldn't complain 'bout the plate I had  
But we never did have no pudding  
And now I'm responsible for bringing in the team and make sure they chilling  
I'm the walking, taking greatness  
They ain't got a clue how long I been waiting  
Now I'm here, here to stay  
Let's see how long I can live in the game  
They love you when you're up  
When your down and out, you'll see them change  
The feeling is strange, but what can I say?  
I got what I wished, can't take it away

Aye, late night driving, it's 5AM on the M-way  
I been in the booth all night, giving my all  
Just so they can press play  
Ain't seen mum in month and I miss her  
But I'm grafting in the best way

I been gettin' bigger and so has the love but it don't seem real  
The closer I get to the top, the more lonely that I feel  
The more that I walk in hot, the more the aroma's giving me chills  
I ain't into talking much  
But I got more raps than a trap boy deals  
The town gets live in the night but I ain't have bread  
So I yakked then chilled

They call me the liveliest guy, the survival in I can't match, that's real  
I ain't got the time anymore  
They tell me I've changed, I tell 'em I've grown  
I walk on the road, I ain't on my own  
I still feel alone, I smile and roll

Aye, late night driving, it's 5AM on the M-way  
I been in the booth all night, giving my all
