

Haters

Arrested Development

They use our cd to squash a bug They use our poster as a hallway rug They use our promo pic as a target for darts But they just better stay out of sight Either way we don't fit into their idea of how they think in life But they just haters haters haters haters You know the type hate to see you shine Find fault in every beat and rhyme like.. Like crabs they pull you down Those haters (haters) So quick to knock you before you try But when you get on they're on your line Like girl you know we should hook up sometime Those haters

(Speech) Let me introduce myself ladies and gentleman Let's talk about them projects that are second rate and the only people that feel em is corporations With money like planets they're in heavy rotation But isn't that what they call product placement But AD is out the basement Apparently the man upstairs has a banquet and He's taking us up there just to taste it Oh. Haters got me sharpening shanks and Poppin' in banks just to make sure we're properly ranked in the highest of high high's Financials taking wings they're sky high To the haters we're waving bye bye

Refrain

(Eshe) Why you got to hate on me when I show you love Folks I grew up with act like they don't know me no more You're shady like an oak tree In a minute you're going to wish that you knew me Cause I'm going to shine so bright just watch me

(1 Love) It's 1 Love back in the A from Germany In a red tee jamming it def like Jay-Z You must be crazy thinking them haters could play me Never lazy playing CD's until 3 at the QT In a burgundy '93 Crown V with my trunk popped Beating down the block bumping Tennessee Out of the Country I was born in the country Where the ghost of childhood haunts me Society is sick, people searching for a remedy Arrested Development got the key to unlock your mind and set it free Life is what you make see It ain't trigonometry Follow us let's take a stand against these haters hand in hand refrain
