## **Since The Last Time**

## **Arrested Development**

It's been years since we blessed stages
Together, we covered bases together and whether
We all agreed or not 20/20 vision is hindsight, and
Now we got that so we done got back.

Some of our soldiers have fallen so many years of toiling Touring tears falling naw pouring jaded from the industries Jabs a lil slower like Muhammad Ali but still we able to last s

We go in the studio it felt new but yet in a good way it felt o ld

Routines we did came back so lucid we was boosted we juiced it And came up with some tracks that's stupid and people responded To em, heads on the blocks wit locks and baggie jeans the whole Scene was fond to em and how we got the labels kissin' Our hind parts we desired art and never sold out for the igh ch art positions

I have been a thousand places Seen a million faces Since the last time

I have been a thousand places Seen a million faces Since the last time

Since the last time

Many rap groups attempt to latch to the popular cultures statut es

And thus they detach their roots from the soil that kept them Loose and made what they delivered so true

There's a desert waste land of past artists that's so cruel fee ling thrown out like

Woody in toy story two and yo we felt that but let me tell you Satan

He dealt that I think it's time to give him his deck back.

[Chorus]
