

Déjà Vu

Arrows In Action

She waits for me alone
In a place I only go
When my eyes are closed
Damn, I thought that
We left it all behind
Funny we're still fine
When I slip into this other life

Déjà vu
Think I've been here before
But there's more to explore
I wanna stay this time
Maybe we could share some wine
Penthouse room
Let's get lost in the sheets
Honey, rinse and repeat
Lay in the morning light
Tell me, how is this real life?
Déjà vu

Every now and then
She waltzes through my head
An apparition, tunnel vision
How could I forget?
The night is young
It's in the air
I'll meet you there

Déjà vu
Think I've been here before
But there's more to explore
I wanna stay this time
Maybe we could share some wine
Penthouse room
Let's get lost in the sheets
Honey, rinse and repeat
Lay in the morning light
Tell me, how is this real life?
Déjà vu

The night is young
I'll meet you there
'Cause nothing in
This world compares
The night is young
I'll meet you there

'Cause nothing
In this world
Compares
To being lost
Right next to you
A window to a
Perfect

Déjà vu
Think I've been here before

But there's more to explore
I wanna stay this time
Maybe we could share some wine
Penthouse room
Let's get lost in the sheets
Honey, rinse and repeat
Lay in the morning light
Tell me, how is this real life?
Déjà vu

The night is young
I'll meet you there
'Cause nothing
In this world
Compares
To being lost
Right next to you
