

## Feel It Again

### Arrows In Action

If I asked you to come over  
And undo all of our closure  
Well then tell me, what's the worst  
That could go wrong?

Is there anything left over?  
Let's go and lose our composure  
Think that I've been way too sober for too long

And in the morning  
I'll be wasted on you  
I want it  
I-I-I want it  
Don't stop  
What we started

I wanna feel it again  
Pull me in  
Like I never left  
Come and hold my hand  
On the edge  
And dive in  
Yeah, I'll hold my breath  
In suspense  
Until I feel it again

You say you're over  
Second chances  
I'm over faking romances  
'Cause the sound we make  
Together is so sweet

Yeah  
What we had was classic  
Don't mean to be so dramatic  
But I pray that you  
Don't go and replace me

And in the morning  
I'll be wasted on you  
I want it  
I-I-I want it  
Don't stop  
What we started

I wanna feel it again  
Pull me in  
Like I never left  
Come and hold my hand  
On the edge  
And dive in  
Yeah, I'll hold my breath  
In suspense  
Until I feel it again  
Until I feel it again

I-I want it

I-I-I want it  
Don't stop  
I-I want it  
I-I-I want it  
If I asked you to come over  
And undo all of our closure  
Well then tell me, what's the worst  
That could go wrong?

I wanna feel it again  
Pull me in  
Like I never left  
Come and hold my hand  
On the edge  
And dive in  
Yeah, I'll hold my breath  
In suspense  
Until I feel it again

Until I feel it  
Until I feel it again
