

Head In The Clouds

Arrows In Action

I'm just gonna stay high, I
Think I'm gonna be alright
Every day a little more alive
With all that I leave behind

Been living my life in circles
Never know where to start or how it ends
Everything is so urgent
Second guess who I've been and how I'm

Breaking my back
Just to take names
Too busy living it up
To put down roots
Tryin' to take notes
Learning how to cope
But I just don't know
If this was worth my youth

All that's left to find
Is peace of mind
Running out of time

I'm just gonna stay high, I
Think I'm gonna be alright
Every day a little more alive
With all that I leave behind
Know I'm gonna get there somehow
Take it all in and breathe out
I got everything I need now
Think I'm done looking down
Got my head in the clouds

Pack up my past in a suitcase
Carry damage with me wherever I go
Woke up in a new headspace
Found a little room to grow

All that's left to find
Is peace of mind
Running out of time

I'm just gonna stay high, I
Think I'm gonna be alright
Every day a little more alive
With all that I leave behind
Know I'm gonna get there somehow
Take it all in and breathe out
I got everything I need now
Think I'm done looking down
Got my head in the clouds

Got my head in the clouds

I'm just gonna stay high, I
Think I'm gonna be alright
Every day a little more alive

With all that I leave behind
Know I'm gonna get there somehow
Take it all in and breathe out
I got everything I need now
Think I'm done looking down
Got my head in the clouds

Know I'm gonna get there somehow
Take it all in and breathe out
I got everything I need now
Think I'm done looking down
Got my head in the clouds
