

## Professional heart breakers

Arsenium

Don't you let your heart be taken  
by Professional Heartbreakers  
They will come to steal your heart  
After will fall apart  
Knowing love is all that matters  
They will send to you a letter  
I will love you, I will need you  
Sorry but I have to leave you

Heartbreakers! Don't let them in your lives!  
Heartbreakers!  
Heartbreakers will come to steal your hearts  
Heartbreakers!

First time when you fall in love  
You will feel like flying, flying  
An odd bullet to your heart  
hurts you, kills you  
can't stop crying  
Your heart is so full of love  
One day, girl, it may explode  
Raising a big shock wave  
Heartbreakers run away

Refren

All the girls from love universe  
Yeah that near me and listen to my words  
I'm gonna be your father, I'm gonna be your mother  
If you wanna be my sister I'm gonna be your brother  
Girl, you have to analyse  
Girl, you have to temporize  
Make no love compromise  
Won't you let them hypnotise ya
