

Run For Me

Arsenium

Love You! Baby go for me!
Run for my life!Run for my x2
A love my baby you!
When you're lonely in the night,
I'll be near to hold you tight,
If you ever want to cry
I'll be there to kiss your eyes

Every night I'll whisper from my heart,
To you all the words of love,
And you're never gone cry ...
Every night we will kiss in the moonlight,
You are never gonna cry,
I will never make you cry.

[Chorus]: Love me, love me, love me la la la,
Feel me, touch me, hold me la la la la la
Take my heart, I'm lonely la la la la,
Kiss me, touch me, love me, love me (2x)
