

Wake up

Arsenium

The smile on your face
Your hands in my hands
We're free to believe that our love never ends
The world has no frame
No boundaries, no blame
It's a place for the dreams that we follow and gain

Make your everyday
Just your perfect day (Just a perfect day, Just a perfect day)
Let your pain go away
It's a perfect day,
For you
Everybody wake up,
Powerful,
Everybody wake up,
And you,
Everybody wake up,
Powerful,
Everybody wake up,
And you.

When you close your eyes,
Imagine you fly
So high in the sky
Place that no one can find
Don't you be afraid,
To follow your dream,
There is always a way
If it's love that you feel.

Make your everyday
Just a perfect day (Just a perfect day, Just a perfect day)
Let your pain go away
It's a perfect day,
For you
Everybody wake up,
Powerful,
Everybody wake up,
And you,
Everybody wake up,
Powerful,
Everybody wake up,
And you.

Wake up,
Wake up,
The sun gone shine for you,
Wake up,
Wake up,
And you,
Everybody wake up,
Powerful,
Everybody wake up,
And you,
Everybody wake up,
Powerful,
Everybody wake up,

And you.
Everybody wake up,
Powerful,
Everybody wake up,
And you,
Everybody wake up,
Powerful,
Everybody wake up,
And you.
