

Ride the Wave

Arsonists Get All The Girls

Walking down the street, want to grab a beer,
Headed to the corner store from here
And I might as well grab a fucking wrap
Munchies scratching at my buds!!
My taste buds that is...
RIDE THE WAVE
It only matters when you ride the wave!
It's just another day, sativa in the van
And there's another blunt burning in my hand
My friends are all I need
Just them and a bag of weed
It only matters when you ride the wave
