

# All the Way

Art Nation

Wake me up it's time to go  
Get ready for another show  
It's another day another road  
I'm a long way from home

Hey wake me up and don't be late  
Another city, another day  
This rocking journey is never the same  
We're going all insane

If you try to bring me down  
You are not a friend of mine  
Let the music do the talking and believe, so

Go  
We're going all the way  
And we ride into the night  
There's a fire burning inside  
So let it all out  
We're in heaven, can't you see  
And living all our dreams  
We're going all the way  
So buckle up baby

Hey, keep it up, we're at the gates  
Another plane, another highway  
Where we stop is where we play  
Life is all about today

And now we're speeding down the boulevard  
We're late and the show is about to start  
This is what we're living for  
And we want more

If you try to bring me down  
You are not a friend of mine  
Let the music do the talking and believe, so

Go  
We're going all the way  
And we ride into the night  
There's a fire burning inside  
And we let it all out  
We're in heaven, can't you see  
And living all our dreams  
We're going all the way  
So buckle up baby

Go  
We're going all the way  
And we ride into the night  
There's a fire burning inside  
So let it all out  
We're in heaven, can't you see  
And living all our dreams  
We're going all the way  
So buckle up baby

We're going all the way  
And we ride into the night  
With a fire burning inside  
And we let it all out  
We're in heaven, can't you see  
And living all our dreams  
We're going all the way  
So buckle up baby
