

It started with a whisper and a feeling of pure desire  
I felt your heartbeat next to mine  
But in the back of my mind I knew something was wrong

Your smile was mesmerizing - always leading me astray  
Your eyes observed my every move  
No matter how I tried, I fell back in your arms  
But its' over now

My firefly  
You've flown too high  
And it's time for us to say our last goodbye  
Don't give me those eyes  
Spare me the lies  
Cause I know you now  
My little firefly

It started with a whisper and a feeling of pure desire  
I felt your heartbeat next to mine  
But in the back of my mind I knew something was wrong

There's nothing that can take away  
The things that we've been through  
I'll always carry the weight of you  
But everything that begins must also end  
And you've had your fun

My firefly  
You've flown too high  
And it's time for us to say our last goodbye  
Don't give me those eyes  
Spare me the lies  
Cause I know you now  
My little firefly

My firefly  
You've flown too high  
And it's time for us to say our last goodbye  
Don't give me those eyes  
Spare me the lies  
Cause I know you now  
My little firefly
