

Oh Julia, how can I explain it all to you
When I'm broken, overall
Oh Julia, I'm scared of walking here alone, so please don't go
Be the one who takes me home

See me for the one who I am
With all the scars and all my pain
Darling you and I, like the stars upon the sky
So here I am screaming out, shout it out loud
That you're my song, Julia

Oh Julia, like a superhero, you saved me from myself
It feels like you're the only way
Oh Julia, I know you're trying, helping me to understand
That I changed it all, and I made this far

See me for the one who I am, with all the scars and all my pain
Darling you and I, like the stars upon the sky
So here I am screaming out, shout it out loud
That you're my song, Julia

I was broken overall, you took away the scars
I hope to be your shining star
You saved me Julia

With all the scars and all my pain
Darling you and I, like the stars upon the sky
So here I am screaming out, shout it out loud
Julia
So here I am screaming out, shout it out loud
So here I am screaming out, shout it out loud

That you're my song, Julia

So please don't go
Be the one who takes me home
