

# The Last Of Us

Art Nation

If you're the enemy to me  
We need to see there's more to be  
Try to see what's meant to be  
Be better, be the one who set us free  
Oh we better be prepared  
There's only a few of us to dare  
To heal the broken scars  
To rewrite it all

Can't we see we've been mistaken  
Falling tears from the sky  
Need to open up, open up our eyes

It's all about us forgotten  
Everyone around us has fallen  
So we better do right, now  
It's the only way higher  
So we fight, fight to survive  
We need to realize what we had  
'Cause we're the last of us

We try to walk on water  
But all we do is falling down  
Down to face the ground  
It goes round and round

Can't we see we've been mistaken  
Falling tears from the sky  
Need to open up our eyes

It's all about us forgotten  
Everyone around us has fallen  
So we better do right, now  
It's the only way higher  
So we fight, fight to survive  
We need to realize what we had  
'Cause we're the last of us

It's all about us forgotten  
Everyone around us has fallen  
So we better do right, now  
It's the only way higher  
So we fight, fight to survive  
We need to realize what we had

It's all about us forgotten  
Everyone around us has fallen  
So we better do right, now  
It's the only way higher  
So we fight, fight to survive  
We need to realize what we had
