

Cut It All Away

Art of Dying

Get out while you can
Find a way to breathe
Time to take a stand
Get up off your knees

I was sinking to the bottom
I was six feet from forgotten
That's when it hit me, oh oh oh
That's when it hit me, oh oh oh, yeah
Oh oh oh, that's when it hit me

I will run from the shadows in my mind
The darkened hallways that remind me
Remind me that I can't stay
I will outrun the battle from within
The beginning of the end is to cut it all away

Make me whole again
I long to be free
Deliver me from sin
And cure my disease

I've been sinking to the bottom
I've been six feet from forgotten
That's when it hit me, oh oh oh
That's when it hit me, oh oh oh

I will run from the shadows in my mind
The darkened hallways that remind me
Remind me that I can't stay
I will outrun the battle from within
The beginning of the end is to cut it all away

I will run from the shadows in my mind
The darkened hallways that remind me
Remind me that I can't stay
I will outrun the battle from within
The beginning of the end is to cut it all away

Run from the shadows in my mind
The darkened hallways that remind me
Remind me that I can't stay
I will outrun the battle from within
The beginning of the end is to cut it all away
